Site Description

Solas Festival is held at the Errol Park – between Perth and Dundee. The site itself is mostly flat grassy fields. On the festival field there is an outside music stage, a bar tent and 3 large marquees which are used for speakers, films and workshops. The area of the field used for the festival is mostly flat, the field gently slopes away behind the tents to a wall. The space is open and it is easy to reach quieter parts. The festival field is around 200m walk from the main campsite, across slightly longer grass/rougher terrain. There is also an accessible campsite 40m walk from the festival field across a tarmac track. There an inside venue in an old stables building, which has step free access via a cobbled courtyard and a concrete floor. The distance between the barn and the furthest away stage on the field is approximately 100 metres. We do not have viewing platforms, but as we are a small, relaxed festival we are confident you will be able to find a spot which is just right for you to enjoy the music. We are happy to assist you with this.
